RE: Board Order  
Cause No. ACT/019/016  
Winecup Resources, Inc.  
Taylor Livestock Mine

Dear Mr. Taylor:

On February 24, 1983, the Board of Oil, Gas and Mining in its regular monthly meeting discussed Taylor Livestock's February 2, 1983 letter requesting a delay for reclamation work to be done at the Winecup Resources minesite.

It was the Board's determination that Taylor Livestock would be granted a 30 day period in which to post the required \$2,000.00 surety for the site. It was the Board's opinion that this would allow Taylor Livestock sufficient time to determine the funding situation for the proposed new bridge and whether or not final reclamation of the property is to occur.

Accordingly, if a \$2,000.00 surety is not posted by March 26, 1983, by Taylor Livestock, or any other party (such as a new operator), Winecup Resources will become responsible, by the Board Order of November 30, 1982, to immediately effect final reclamation upon the property.

The required surety may be in the form of collateral, a bond or other form of insured guarantee, deposited securities or cash. Please contact me or Susan Linner at 533-5771 if you need further clarification on this matter.

Sincerely,

JAMES W. SMITH, JR.
